Any person subsequently offering, selling or recommending the Securities (a **Distributor**) should take into consideration the manufacturer's target market assessment; however, a Distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Securities (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels.

PRIIPs Regulation – PROHIBITION OF SALES TO EEA RETAIL INVESTORS WITHOUT KID – The Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (**EEA**) without an updated key information document required by Regulation (EU) No 1286/2014 (as amended, the **PRIIPs Regulation**) for offering or selling the Securities or otherwise making them available to retail investors in the EEA. UK MiFIR product governance / Retail investors, professional investors and eligible counterparties target market – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Securities has led to the conclusion that the target market for the Securities is only eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook (**COBS**), and professional clients, as defined in Regulation (EU) No 600/2014, as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (**EUWA**) (**UK MiFIR**), and retail clients, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of EUWA. Any person subsequently offering, selling or recommending the Securities (a **Distributor**) should take into consideration the manufacturer's target market assessment; however, a Distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the **UK MiFIR Product Governance Rules**) is responsible for undertaking its own target market assessment in respect of the Securities (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels.

UK PRIIPs Regulation – PROHIBITION OF SALES TO UK RETAIL INVESTORS WITHOUT KID – The Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (**UK**) without an updated key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (**EUWA**) (as amended, the **UK PRIIPs Regulation**) for offering or selling the Securities or otherwise making them available to retail investors in the UK. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the EUWA; (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA (the **UK Prospectus Regulation**).

D. Principal Risk Factors relating to the Guarantor

The following risks have been identified as being significant and specific to the Guarantor and of a nature, should they materialise, to have a significant negative impact on its business activity, its financial position and its access to various sources of financing:

- 1) Credit and counterparty risks, which include credit risks on its corporates and financial institutions counterparties, risk on sector or individual concentration, counterparty risk on market transactions, credit risk related to securitization transactions as well as country and sovereign risks;
- 2) Financial risks, which include market risk, risk of change in the value of its securities portfolio, foreign exchange risk, transformation risk, liquidity risk, risk of change in the value of equity investments, and global interest rate risk;
- 3) Operational risks and associated risks, which include compliance and legal risks and other operational risks including information system security risks;
- 4) Business risks, which include systemic risk (negative impact of adverse economic and financial conditions, as well as changes in laws and regulations) or strategic risk;
- 5) Climate and environmental risk; and
- 6) Risks relating to the structure of the Crédit Agricole Group.

3.4 What are the main risks specific to securities?

There are risk factors which are material for the purpose of assessing the risks related to the Certificates, including the following:

- 1) The trading price of the Certificates may fall in value as rapidly as it may rise and Certificateholders may sustain a total loss of their investment;
- 2) The Certificates may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Illiquidity may have an adverse effect on the market value of the Certificates;

- 3) The implementation in France of the EU Bank Recovery and Resolution Directive could materially affect the rights of the Certificate holders, the price or value of their investment in the Certificates and or the ability of the Guarantor to satisfy its obligations under the Certificates;
- 4) French insolvency law could have an adverse impact on Certificate holders seeking repayment in the event that the Issuer, the Guarantor or its subsidiaries were to become insolvent and could have a material adverse effect on the market value of the Certificates;
- 5) The risk relating to the unsecured nature of the Certificates and the Guarantee, the absence of negative pledge and debt restrictions with respect to the Issuer and the Guarantor, all of which could have an adverse effect on the market value of the Certificates;
- 6) The optional redemption feature of the Certificates might negatively affect the market value of the Certificates;
- 7) The Interest Amount, the Automatic Early Redemption Amount and the Final Redemption Amount of the Certificates are dependent upon changes in the market value of the Underlying(s), which could adversely affect the market value of the Certificates. In addition, the Early Redemption Amount and the Final Redemption Amount may be less than the nominal amount of the Certificates and the holders of Certificates may lose all or part of the amount of the principal invested;
- 8) An investment in the Certificates does not confer any legal or beneficial interest in the Underlying(s) or any voting rights, right to receive dividends or other rights that a holder of the Underlying(s) may have. Potential losses in value of the Certificates cannot be compensated by other income; and
- 9) The Certificates are not principal protected and investors are exposed to the performance of the Underlying(s); accordingly, they risk losing all or a part of their investment if the value of the Underlying(s) does not move in a positive direction.
